Demartian : Art Kramer : James : ZeroBorg : JR : yzma_73
Andrew Becker : Nicholas Hancock : ion9

A very special thanks to Poiupoiu for his tireless efforts with producing videos.

Thank you all for joining us this year at PhreakNIC 22. Most of you need no introduction, but to the new folks; I hope you enjoy yourselves as much as those of us who have been coming a long time. PhreakNIC is hard to put to an elevator speech. It's those whose favorite questions are "How does that work?" and "Can I make it work different?". We follow the Hacker Spirit which is more than just information security. Embrace your inner curiosity because you are among friends who are passionate about building/writing their own stuff just because they can or maybe even picking other stuff apart just to see how it works. We have made the lunch and dinner breaks generous because we are told meeting new friends and sharing a meal is one of the best parts of PhreakNIC. Don't miss out by not introducing yourself to someone new and grabbing some dinner over a discussion of radio waves, securing a webserver, or even building your own home automation system. Have fun and stay curious 😊

FRIDAY, OCTOBER 19th 2018
